try had an organization such as that of the High School Cadet Regiment of this city was asserted by Brig. Gen. Albert L. Mills, chief of the militia division of the War Department, in an address at Central High School yesterday afternoon. Gen. Mills delivered his address in connection with the presentation of commissions to the officers of the cadets.

"The President referred to the resumence of the country on its citizens as coldiers in a recent message to Congress," he said. "The training which you get with your present command does you good in every way, but a well drilled company is not always, or nearly always, prepared to go to war. I urge you to accept the training for war which is offered by the National Guard of the District of Columbia."

Ernest L. Daniel, vice president of the board of education and chairman of the military committee of that body, presided. He was introduced by Stephen E. Kramer, assistant superintendent of schools. The Tech Orchestra, under the direction of Dore Wolfsteiner, played several selections.

AN EASY WAY TO END CATARRH FOREVER

Simple Home Treatment Destroys Germs of This Dangerous Disease.

isotement in the nose, threat and head and modifies rapidly.

The germs of catarrh can be best destroyed by insaling the pure medicated air of fivoured pronounced High-o-met. This splended and pewerful combination of oil of Encatyptus with other healing agents has a wonderful germieldal action. You breather its air into your nose, throat and lungs by means of a small hard rubber inhaler which O'Donnell's Drug Store and other leading druggists here in Washington and vicinity supply with every treatment. This medicated air is certain death to the germs of Gatarrh and drives them completely out of your system, and when the germs are destroyed the catarrh with all its disagreeable symptoms will stop. Even two or three minutes' use will give refreshing relief, while if you will use it two or three times a day for a few weeks it will completely bands catarrh. As Hyomel is pleasant to breathe and is always sold by druggists averywhere with a positive guarantee of successful results or money back, surely no Catarrhal sufferer should go long before trying this eimple home remedy.

England's Bread Basket.

How the United Kingdom draws on all the world for wheat to fill her bread basket in war time is the subject of Charles M. Pepper's next aricle in the Special Features Section of The Sundy Star. He shows that the population is able to feed itself only ninety days in times of peace; that supplies from Russia and Roumania are now cut off by the war; that the British colonies are able to provide only half of the wheat needed, and he sets forth what the bumper crop in the United States means to Great Britain this year. USING SOAP SPOILS THE HAIR

Soap should be used very sparingly, if at all, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and ruins it.

The best thing for steady use is just ordinary mulsified cocoanut oil (which is pure and greaseless), is anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, remov ing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage. You can get mulsified cocoanut oil at any pharmacy, and a few ounces will supply every member of the family for months.
